DETAILED ACTION

1. This action is in response to Applicant's submission filed 6/7/2006, responding to the 2/7/2006 Office action which detailed the rejection of claims 1, 3, 5, 6, 10, 11, 13, 15, 16, and 20-24. Claims 1, 11, 21, and 22 have been amended and claim 24 has been canceled. Claims 1, 3, 5, 6, 10, 11, 13, 15, 16, and 20-23 remain pending in the application and have been fully considered by the examiner.
2. The cancellation of claim 24 has obviated the rejection of that claim under 35 U.S.C. § 101. Likewise, the rejection is withdrawn.
3. Applicant's arguments on pages 8-10, filed 6/7/2006, are moot in view of the following examiner's amendment.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. New limitations are supported by paragraph [1123] on page 36 of the originally filed specification. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William S. Galliani, Reg. No. 33,885 on 9/27/2006.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1 (Currently Amended): At the end of line 9, after “trace memory”, please insert:

with a configurable synchronization period corresponding to the trace memory size

Claim 11 (Currently Amended): Near the end of line 10, after “ASID values”, please insert:

, wherein the trace memory has a configurable synchronization period corresponding to the trace memory size

Claim 21 (Currently amended): At the end of line 12, after “ASID values”, please insert:

in a trace memory, wherein the trace memory has a configurable synchronization period corresponding to the trace memory size

Claim 22 (Currently amended): near the end of line 15, after “ASID values”, please insert:

in a trace memory, wherein the trace memory has a configurable synchronization period corresponding to the trace memory size

—END EXAMINER’S AMENDMENT—

Allowable Subject Matter

5. The following is an examiner's statement of reasons for allowance: The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, a trace mechanism that is triggered for selected processor modes and ASID values, and storing trace information and synchronization information in a trace memory with a configurable synchronization period corresponding to the trace memory size. These limitations are present in each of independent claims 1, 11, 21, and 22. The distinctions provided by the independent claims apply equally to all dependent claims. Thus all pending claims 1, 3, 5, 6, 10, 11, 13, 15, 16, 20-23 (renumbered 1-13) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Derek Rutten whose telephone number is (571)272-3703. The examiner can normally be reached on T-F 6:00-4:30.
